

# Medallion Landscape

## Large Renovations and Installations

### RENOVATIONS AND INSTALLATIONS

Landscape design and maintenance of your property is the most important component to an outdoor space that is both functional and appealing. When choosing Medallion your landscape will be carefully planned to blend into a complimentary design and function that brings out the beauty of your property, incorporating all areas from the road to your front door. The design will blend the natural grounds surrounding the property with the architectural design of the structure, creating a visually appealing unified property. With the use of lines, texture, form and balance, our team designs and develops property landscapes with specific focal points that turn heads. We can design/build or work with your plans coordinating with architects, developers and contractors.

### OUR SERVICES INCLUDE:

- Consulting and design
- Renovation and installation
- Environmentally-conscious strategies
- Colorscape design and installation
- Experienced on-site supervisors

MAINTENANCE  
TREE CARE  
RENOVATIONS  
WATER CONSERVATION

Medallion Landscape is a full service landscape contractor; managing maintenance, enhancements, integrated pest control and installation for multi-family residential and commercial properties.

Please contact us to set up an appointment and see what Medallion Landscape can do for you.

## HARBOR COVE INSTALLATION

In any project that Medallion Landscape takes on, we will work with your team to come up with the best solution for your property. We can handle the project from start to finish including design and installation or we can work with your plans and architects to bring your vision to life. Harbor Cove is a great example of working with customer drawings and coordinating with their team to go above and beyond.
